STATE BANKERS TRY TO DIAGNOSE ILLS OF FARMER

Creation of Community Industries Proposed.

cial.)—Practical intermingling of agriculture and industry is the solution of the farm relief problem, according to the sentiment of the American Bankers' association, as expressed by its president, Thomas R. Preston of Chattanooga, Tenn., addressing today the Hilnets Bankers' association's thirty-eighth annual convention here.

Mr. Preston advocated the greation of industries in small communities all over the country to absorb the present surplus of farm labor and at the same time make a market for more farm produce. He declared there was no political solution of the farm problem, saying politics never added a dime to a bushel of wheat or corn. "The agricultural problem is an economic one, pure and simple and must be handled accordingly," he said.

the nation had "gone craxy" over stocks and bonds.

Judge Floyd Thompson, Democratic candidate for governor, addressed the convention on the development and the American system of government, and implied a warning against the encroachment of the federal government upon local self government.

"When the time comes," he said, menda

encroachment of the federal government upon local self government.

"When the time comes," he said "that the votes of distant majorities unfamiliar with local needs and outtoms, dominate local government, threedom of adjustment which preserves both national and local libert in our system will be destroyed."

ment reported that "eighty-five per cent of the banks operating in the state in 1927 show that, compared with 1925 and 1926, deposits were lower, gross earnings declined, expenses showed a heavy increase, and net profits a heavy decrease."

Under socialism all the great processes essential to the production of our necessities, food fuel, housing, transportation, would be carried on by state employes, officials, bureaucrate, job holders, heachmen, payrollers. In socialist thought these would all be superior men, released from the economic pressure and tyranny of profit seeking for themselves or capitalist masters, and devoted to altruistic industry for the common good. No existing state employment in our country or any other justifies such expectation. The socialists, including Mr. Shaw, tell us that even our capitalist state has pleosmeal socialism in the public service, and we can concede that readily and at the same time point out that we want no more of it than conditions compel.

Socialism, stripped to its practical realities, is politics and all that politics involves and implies. Socialists complain of the waste of competition. G. W. Burton tested turnip greens and collards for vitamins A. B. and C. and found all present in satisfactory amounts. Vitamin A is the one for which we drink milk and eat butter especially. It is a fat soluble substance required for growth. Vitamin B also is known as a growth vitamin. It is water soluble, However, it is probably a mixture of vitamins containing some substances which protect against neural-gias and neuritis, as well as the growth principle. Vitamin C is the principle we secure when we cat oranges, fruits and tomatoes.

Walgreen and **Economical Dr. Stores** Then they discovered Muffets!

Just think—it was only a few months ago that most people didn't know what they wanted for breakfast. Millions know now. They've discovered Muffets!

Have you? If not, tune your appetite to this picture! Whole wheat, cooked,

drawn to a filmy-thin ribbon. Wound round and round to muffin shape and size. Baked. Toasted butternut brown. Light as a crumpet! Crisp as potato chips. Eat one for breakfast, with cream and sugar. Or add fruit. Vitamins, calories, bran. Easy digestibility. But it's the downright good eating in Muffets that's put them on millions of breakfast tables

Here's Your Vacation Directory

THE

VACATION LINE

Wherever your path to golden vacation adventure leads, if it's West, The Burlington can serve you. Superb train service, a fortunate geographical location, convenient schedules reliably maintained, and courteous thoughtful personnel have won for The Burlington the greatest patronage of Rocky Mountain vacationists given to any railroad.

Colorado Three crack trains to Denver, the gateway to the Colorado Rockies . . . affording also (with one more) peerless service to Omaha and Lincoln, Nebraska.

Yellowstone The only through train from Chicago (Yellowstone Comet) designed especially for Yellowstone travel ... carrying through Pullmans to the Cody, Gardiner and Bozeman-Gallatin Gateways.

Glacier Park The only through service from Chicago to Glacier National Park. Two crack trains daily (one the famous Oriental Limited) take you to within 300 yards of the Glacier Park Hotel.

Pacific Northwest The North Coast Limited (Burlington-Northern Pacific) and Oriental Limited (Burlington-Great Northern) . . . famous flyers to Spokane, Seattle, Tacoma and Portland. California Through Pullmans daily to California via the only really great scenic route—via Denver, Colorado Springs—Pikes Peak Region, Royal Gorge, Colorado Rockies and Salt Lake City.

Black Hills Detour This 2-day, 200-mile circle tour by motor through the Black Hills of South Dakota is the feature of the 1928 vacation season. This can be included without the slightest inconvenience in any trip to Yellowstone, Glacier Park or the Northwest.

Dude Ranches The Burlington has through service (and the only service) to the famous Dude ranches in the Big Horn Mountains (Sheridan, Wyoming) and the Buffalo Bill Country around Cody, Wyoming.

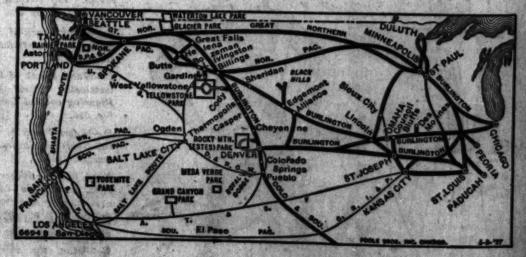

Minnesota Lakes Five magnificent trains via the comfortable and scenic water level route alongside the Mississippi River to St. Paul and Minneapolis, the twin gateway to the Land of 10,000 Lakes.

Combination Trips (Your vacation budget) A glance at the map will show how The Burlington goes not only directly to the various outstanding recreation areas of the Rocky Mountains, but also has the only North and South lines linking up one region with another. Over these intermountain lines we operate through trains and through Pullmans . . . for example: between Yellowstone and Colorado; and between Glacier Park and Yellowstone. The utility of this intermountain service is readily apparent when one makes the discovery that (1) Summer tickets to Yellowstone or Glacier Parks can be routed through Colorado at no extra cost. (2) The summer fare to both Glacier and Yellowstone is only \$4.75 more than to Glacier Park alone.

Traveling House Parties

You have heard about the Burlington Escorted Tours—all expense, planned-inadvance vacation tours of from 9 to 20 days to the Natonal Parks, Colorado, California,
Pacific Northwest, the Black Hills and Alaska—individually or in combination.

A new inner tube? Let your tooth paste pay for it

How come, you ask? Do a little arithmetic with us and find out. The average dentifrice costs you soc. You use about a tube a month. Twelve times fifty equals six dollars, the yearly cost. Listerine Tooth Paste nets 25c (the large tube). Twelve times twenty-five equals three dollars. All right. Six ollars minus three dollars equals three dollars, your annual sav-ing. HOW THEY FOUGHT FOR THE TITLE

Observe this picture and you, who weren't there, will get a fair idea of the type of fighting which marked Micky Walker's successful defense of his title against Ace Hudkins last night. Hudkins (at the left) kept boring in head low, on the theory that he was the champion's master in-fighting. The canvas covering the ring is covered with water.

The fight failed to produce the punching expected. Hudkins fought the kind of fight to win. He refused to permit Walker to feint him into position to be nailed with the champion's vicious right and left swings. He also refused to give Mickey a straight shot at his body. I thought Hudkins fought a winning battle and abould have been declared the winner. At 3 o'clock yesterday afternoon, Walker weighed 158 bounds and Hudkins, 155.

CONTINENTAL NATIONAL BANK AND TRUST COMPANY OF CHICAGO, Trustee

Mr. Henry L. Hollis, President, summarizes his letter to the Bankers as follows: BUSINESS: The Palmer Corporation of Louisiana is engaged in the production, purchase, trans-portation and sale of natural gas to large industrial

and public utility customers in the northern part of the State of Louisiana. The component properties were previously under the same ownership and the first unit was incorporated more than fifteen years ago.

PROPERTIES: The Corporation controls the gas rights on more than 109,000 acres of land in northern Louisiana, of which over 58,000 acres are situated in Monroe, Richland, Elm Grove, and other proven gas fields. On this acreage are 75 gas wells with a present daily open flow capacity of 559,538,000 cubic feet, and 9 producing oil wells.

The Corporation and its subsidiary own 150 miles of pipe line radiating from Shreveport, a compressor station of 1,350 horsepower rated capacity, three gasoline absorption plants, a carbon black plant, and necessary auxiliary property and equipment. CONTRACTS: The Corporation has contracts

for the sale of natural gas to the Southwestern Gas & Electric Company, the Interstate Natural Gas Company, the Ebony Carbon Company, United States Sheet and Window Glass Company, North American Carbon Company, Tire Carbon Company, Benton Gas Company and Weston Carbon Company.

GAS RESERVES: As of January 1, 1928, the gas reserves of the Corporation were estimated by Ralph E. Davis, Engineer, Pittzburgh, Penn-sylvania, to be 493,114,000,000 cubic feet. On the basis of contracts now in effect it is estimated that the Corporation's gas sales for 1928 will approximate 20,000,000,000 cubic feet.

SECURITY: These Bonds, in the opinion of counsel, will be secured by a closed first mortgage on all the fixed properties and upon all proven and producing acreage now owned or hereafter acquired by the Corporation except that pipe line rights of way and mineral rights may be subject to the customary farm mortgages.

As of January 1, 1928 the fixed properties of the Corporation had a depreciated value, as appraised by Ford, Bacon & Davis, Engineers, of \$2,417,095, and the natural gas and oil reserves had a net sound value, as appraised by Ralph E.

Davis, Engineer, of \$8,629,525 or a total value of \$11,046,620 for all properties subject to the

Based on the Corporation's balance sheet as of December 31, 1927, but adjusted for this financing, net tangible assets available for these Bonds amounted to \$12,452,021 or more than \$3,100 for each \$1,000 Bond.

EARNINGS: For the year ended December 31, 1927 net earnings of the Corporation available for interest, reserves and other capital extinguishments were \$589,755 and for the 5 years ended December 31, 1927 similar earnings averaged \$541,032 per annum. The maximum interest on the Bonds presently to be outstanding totals \$240,000 per annum. \$240,000 per annum.

The Corporation reports earnings for the first quarter of 1928 at \$193,267, which is at an annual rate of \$773,000. These earnings do not reflect any benefit to be derived from the development of the properties acquired with the proceeds from the sale of this issue of Bonds and the sale of additional gas thereby made possible. It is expected that with the further conservative expansion of the Corporation's operations its future earnings will be proportionately increased.

SINKING FUND: The indenture securing this issue will provide for the payment of a fixed sinking fund which, it is calculated, will retire more than 85% of these Bonds by maturity. The maximum annual requirement for interest and sinking fund is \$550,000.

PURPOSE OF ISSUE: The proceeds of this issue of bonds will be used to retire present debt of the Corporation incurred in the acquisition of properties, for extensions and improvements, to provide additional working capital and for other corporate purposes. corporate purposes.

MANAGEMENT: The Corporation will continue under the direction of the management which has successfully developed and operated the properties in the past. The Directors of the Corporation are Messrs. Potter Palmer, Henore Palmer, Henry L. Hollis and E. J. McGowen, Jr. of Chicago and N. C. McGowen of Shreveport, Louisiana.

Books and accounts of the Corporation and producessor companies have been audited by Howard Kreeki & Company. Legal matters in one section with this issue will be passed upon by Hessur. Chapman and Cutler for the Bankers and Hessur. Winston, Strawn & Shaw iss the Corporation. We offer those bonds when, as and if issued and accepted by us, subject to the approval of all legal proceedings by committee in the first instance may be made in the form of Trustee's interim receipts.

BUSINESS: European Mortgage & Investment Corporation was organized in 1925 by Lee, Higginson & Co. and J. Henry Schroder Banking Corporation. One of its principal purposes is to make carefully selected

The Series C Bonds to be outstanding, including this issue, will amount to \$12,975,000 and will be secured by mortgage obligations of the Coöperative Society of Hungarian Mortgage Institutions (Magyar Jelzálogintézeteknek Szövetkezete) which has been formed in Hungary to issue its mortgage obligations to the Corporation. This Coöperative Society has as its members several of the most important Hungarian

The Corporation also has outstanding \$2,245,000 (Closed) Series A 71/2% Bonds, secured by Austrian land mortgage obligations, and \$6,804,500 Series B 71/2% Bonds (\$15,000,000 authorized) secured by Hungarian land mortgage obligations.

SECURITY: These Series C Bonds will be a direct obligation of the Corporation and will be accured by deposit with the Trustee of an equal amount of mortgage obligations of the Cooperative Society. These mortgage obligations turn will be secured by at least an equal amount of first mortgages on farms, residential property and apartment because in Humany.

The first mortgages will be deposited with and guaranteed by a Member Bank. In addition, each Member Bank will guarantee proportionately the prompt payment of interest and principal upon all the mortgage obligations of the Coöperative Society. This liability is such, however, that each Bank is ultimately liable for all the mortgage obligations. gations of the Society. The principal and interest on both the first mortgages and on the mortgage obligations will be payable in United

Additional bonds of this or other series may be issued against the pledge of an equal face value of mortgage obligations of the Coöperative Society. Under Hungarian law all mortgage obligations of the Coöperative Society are equally secured by all first mortgages held by the Society.

PLEDGED FIRST MORTGAGES: Each first mortgage will be administered and guaranteed by the Member Bank which has selected it. No mortgage will exceed 40% of the conservative appraised valuation of the property, and the borrower must constantly reduce his loan through semi-annual cumulative amortization payments sufficient to retire the loan bysits maturity.

PURPOSE: The proceeds of these Bonds will be used from time to time to pay for mortgage obligations of the Coöperative Society as such obligations are pledged with the Trustee. If \$6,000,000 of such obligations are not obtained by August 15, 1928, interim receipts equal to the difference will be retired through purchase or call.

Descriptive circular, copies of which will be supplied upon request, contains a letter from Mr. Semuel Keller Jacobs, President of the borrowing corporation (59th Street and Fifth Avenue Corporation) from which he summerises

Property: The 59th Street and Fifth Avenue Corporation, incorporated under the laws of New York State, owns in fee a plot at the northeast corner of Fifth Avenue and 59th Street, New York City, fronting 100 feet on Fifth Avenue and 125 feet on 59th Street, with a ground area of approximately 12,510 sq.ft., together with the thirty-seven story Sherry-Nether-land Hotel, completed on this site late in 1927. The location is in the heart of the City's most fashionable residential section, within a few minutes walk of the shopping district of Pifth Avenue and the theatre and up-town business districts.

The building, of fireproof construction, contains 7 stores and 527 rooms and was designed to cater to those desiring a permanent residence providing every comfort and convenience. An exceptional feature is the well-known Sherry service.

Security: Title of the Corporation to the land and building has been insured by the Lawyers Title and Guaranty Company and Title Guarantee and Trust Company, who have certified that the First Mortgage Sinking Fund Gold Bond Certificates are secured by a first mortgage on the land and building.

The land and building have been appraised by two independent appraisers at \$9,040,000 and \$9,050,000, respec-

company: Consolidated Gas Utilities Co., upon completion of the present financing, will own or operate through its subsidiaries, complete and unified systems for the production, transportation and sale of natural gas at wholesale or retail in fifty-one towns and communities in western and northern Oklahoma and south central and southeastern Kansas, including Wichita, Hutchinson and Chanute, Kanasa and Enid, Cushing, Blackwell and Lawton, Oklahoma, serving an estimated population of 400,000. and Enid, Cushing, Blackwell and Lawton, Oklahoma, serving an estimated population of 400,000. This financing provides for the construction of a fourteen-inch high pressure pipe line from the Wheeler County extension of the Amarillo gas field to Enid, Oklahoma, thereby making the reserves controlled by the Company in the largest known gas field in the world available to the important industrial markets served in northern Oklahoma and southern Kansas. Ralph E. Davis, Engineer, estimates that at the expected rate of withdrawal the gas reserves brought under control of the Company through this financing, including large leaseholdings and valuable gas purchase contracts in several fields and comprising approximately 84,000 acres, will provide an adequate supply well beyond the life of its funded indebtedness.

The constituent systems will comprise the properties of the former Midwest Gas Company, Blackwell Pipe Line Company, Oklahoma Northern Utilities Company and Oklahoma Northern Gas Company, including, together with the Amarillo-Enid line and the lines of Larutan Gas Corporation to be controlled through common stock ownership, approximately 1,000 miles of transmission lines. Mose than 30,000 customers are now supplied from these systems. Total sales for the calendar year of 1927 exceeded 16,700,000,000 cubic feet.

EARNINGS: The gross and net earnings for 1927 given below are as compiled by Barrow, Wade, Guthrie & Co., Auditors and Consulting Accountants, from auditors' reports and adjusted by Ralph E. Davis, Engineer, giving effect to elimination of non-recurring charges and adjustments of gas purchase costs as a result of the consolidation (before eliminating certain offsetting intercompany items in gross earnings and operating expenses) and the construction of the Amarillo-Enid line.

The balance of \$1,567,436, as above, is equivalent to more than three times the maximum as requirement on the First Mortgage and Collateral 6% Gold Bonds, Series A. Ralph E. Davhas estimated earnings for the first year of full operation (which it is expected will be the 1929) that indicate a balance of more than four times such maximum annual interest recommendations.

SECURITY: These Bonds, in the opinion of counsel, will be secured by a direct mortgage on all the mortgageable physical property of the Company and by pledge of all the stock, except directors qualifying shares, and all of the outstanding bonds of Midwest Gas Corporation, and certain other whole owned subsidiaries, \$500,000 7% Debentures and all of the Common stock of Larutan Gas Corporation owned by the Company (at least 83%), and certain valuable leases, contracts, franchises and agreements of the Company. The properties of Larutan Gas Corporation will be subject to \$2,854,000 bond outstanding in the hands of the public.

The combined properties, upon completion of the Amarillo-Enid line, have been valued by Ralph I Davis, Engineer, at a figure in excess of \$19,000,000.

PURPOSE OF ISSUE: The proceeds from the sale of these Bonds, \$4,500,000 61/4% Convertible of Debentures, Series A, and 130,000 shares of Class A Stock, will be used for the retirement of all of present outstanding funded indebtedness and other obligations of the constituent companies (except \$2,854,000 bonds above mentioned), for the purchase of Common stock of Larutan Gas Corporation, the construction of the Amarillo-Enid pipe line and for other corporate purposes.

Wise Bride Invites Husband's Friends as Well as Her Own BY DORIS BLAKE.

The former bachelor, used to girls, their adulation and their company, is loath to settle down suddenly in the company of one, the bride relates. Several of his old girls, he insisted, should be invited to his wedding, which the bride believed a concession which the bride believed a concession on her part to grant. The girls were just close friends, he swears, and the bride believes him.

But she believes all her husband's former friends were and are a bit too free in their manner to be encouraged as guests in her home. Which is what the new benedick requests his bride to make them for an occasional

For her wedding at the Kenwood church last night to Arthur Bott Treman, son of Mr. and Mrs. Charles E. Treman of Ithaca, N. Y., Miss Louise Warren, daughter of Mr. and Mrs. Walter G. Warren of 4941 Kimbark avenue, wore ivory satin with rose-point, and a tulle veil, and carried lilies of the valley, gardenias, and white orchids. The attendants wore shades of pink and rose color, and carried shower bouquets of delphinium, corn flowers, roses, and sweet peas. The church was decorated with ferns and spring flowers. A reception at the Blackstone followed the service. Mr. and Mrs. Treman are to go to Bermuda for their honeymoon, after which they will reside in Ithaca. "trainer" your tactics will never make a nice performing animile. Instead, he'll snap his jaws, bark and perhaps kick up his heels some day and scamper off.

Invite the girls to dinner. You have Saturdays and Sundays free. Prepare the neatest dinner you know how. Give the girls the giad hand when they come. Make them feel that as friends of your husband there's no one more welcome. If they're of interior grade, your superiority will be doubly reflected. But forget about their inferiority. Perhaps your foolish jealousy of them only makes them seem that way. And remember thisthat a husband invites his old friends into his home because he is proud of it and of the "little woman" presiding over it. Don't be a silly, now. Run along and prepare that dinner!

Now gentle paim and olive oils are embodied in a special soap to bring out natural localiness and safe-guard the finest shin

THE real danger in make-up lies in the way you remove it. For unless it is removed each night carefully and thoroughly, pores will clog, skin will be blemished and sallow. Cleanse your akin with palm and olive oils in the rich lather of a beauty soap to keep its texture fine, its color glowing and youthful.

Use Palmolive, a soap uniquely embodying these priceless beauty oils. They penetrate and cleanse like nothing else will do.

Every night give skin the following care and forget about looking old: Gently massage Palmolive lather into the face for two minutes, using your own two hands. Allow the oily lather to penetrate and cleanse each pore. Then rinse with warm water, then cold. Dry by gently patting. A touch of cream if skin is naturally dry. That is all. as paster of SS. Cyril and Methodius
Caseho-Slovak church, Johnstown, N.
Y., in compliance with Miss Randolph's wishes. He was in New York today to effect a reconcillation.
The minister said Miss Randolph telephoned him Tuesday night, "I've just heard something about you," he quoted Miss Randolph as saying.
"I can't tell you, but I guess we'll not be married."
He said in response to his request for the name of her informant she would only say that it was some minister.

Tonight his nomination was about was about. Tonight his nomination was announced. Chicago remains somewhat in the background in the new ticket. Earle G. Krumine is the only officer from that city. He will be the new treasurer, succeeding Joseph K. Brittain, also of Chicago. There is only officer from that city. He will be the new treasurer, succeeding Joseph K. Brittain, also of Chicago and the board of directors, also of Chicago and the board of directors, and forth between the Circuit and Superior courts. Inasmuch as Judge Brothers is a Circuit judge the position goes to the Superior court this year. The assignment is considered of importance this year because of crowded court calendar conditions and would only say that it was some minister.

A Wedding Gown of Tulle Is Modish

NEW YORK.—[Special Correspondence,]—When it comes to the tuile period frock the medium height is the happy medium. This type of gown does not look well on any woman more than 5 feet 8 in stature. It makes her look too mountainous. Nor is it much more successful on the exceedingly petite, for by the breadth of the skirt and the fitted corsage the latter is robbed of her precious inches. Such considerations as this are certainty necessary before choosing the tuile period frock for our wedding array. One must remember, indeed, that, although when donned by exactly the right type this mode is enchanting, it should often be abjured in favor of the classic white satin.

Suppose, however, that one be slim

The Sunbeam Flat Toaster puts a man at his work on time in the morning because it serves his breakfast on time at home. He arrives in the best of humor because he feels

Toasting FLAT, with the bread directly OVER the heat (instead of beside it as in upright toasters) the Sunbeam-uses ALL the heat, hence only half as much electric cur-

rent, and only half as much time. Yet best of all is the

toast itself-not dried stiff by too slow toasting-but crisp and golden, with a tender center-the most delicious toast

Here's the only Toaster that toasts Sandwiches with the

well fed, no matter how lightly he may est.

A plug that fits all electrical appliances, lasts a lifetime, and forever ends the exasperating troubles that you have experienced with ordinary plugs. Fully patented—there is nothing else like it. So don't accept any other kind, but leave your order or send to us if your dealer can't supply you. GUARANTEED ELECTRIC APPLIANCES FREE New Non-Breakable Trouble-Proof Plug
